UNIVERSITAS SUMATERA UTARA
2016 – 2021
Information Technology

SMA N 4 MEDAN
2013 – 2016
Medan, Sumatera Utara

ABOUT ME

I am a fresh graduate from the information technology department who is engaged in web development. as a fresh graduate who is very enthusiastic and passionate about anything related to computers and programming whether it's about web applications, database systems such as MYSQL as well as IT, I am proficient in several programming languages such as PHP, HTML, Javascript, CSS then able to use git to work closely with the team, including by using Laravel (PHP Framework) to build the system. Being active in organizations since high school has allowed me to build good relationships and have a personality that always wants to learn new things, and personally as a fresh graduate I use my spare time to learn new things because I believe that technological developments will always advance in another sense growing rapidly. as an IT should be updated about current technological developments.

ORGANIZATIONAL EXPERIENCE :

- Member of sports dan art division at Himatif (2019)
- Head of event division at PMB TI North Sumatra university event (2018)
- Member of sponsorship division at Artechno North Sumatra University event (2017)
- Member of secretariat division at International Conference on Computing and Applied Informatics (ICCAI) event (2017 - 2019)
- Head of sponsorship division at ITFest North Sumatra University event (2016)

WORK EXPERIENCE :

EMGLOW AESTHETIC CENTRE - IT SUPPORT (2021 - PRESENT)

Engaged in beauty clinics and selling products, and has 2 branch clinics in Bandung and Bekasi. I work as IT support to help employees how to use the system so that all operational activities can be done online, such as e-resume and so on. and can reduce the use of paper.

WBA INDONESIA - FULL STACK PROGRAMMER (2019 - 2021)

we work to create a web system (web Apps) using a PHP framework called Laravel, and use git in every project we work on. Many clients need web apps for their business needs or to monitor warehouses. and we have worked on many large-scale projects, such as government websites

UTBK SBMPTN - IT SUPPORT (2019)

I worked as an implementation committee at the 2019 UTBK to check, supervise, and monitor the state of the computer during the exam then ensure that all computers are connected to the server network and all computers are running well without any problems.
